Overview

This document outlines the Market Data APIs and their respective functionalities. These APIs provide data on Historical data, Index, futures and options contracts, open interest (OI) movements, option chain details, and market movers. They help identify OI gainers/losers, most active securities, and top performing or underperforming indices and industries. The following tables provides a summary of the available APIs along with a brief description of their purpose.

1. Historical REST APIs

Sr	API Name	Description
1	getTickData	Provides historical tick-level market data of a given symbol for a specified period.
2	getLastNTicks	Retrieves the last N ticks for a given symbol
3	getBarData	Returns historical bars for a given symbol and timeframe.
4	getAllBars**	Provides all traded bars of a segment for a particular minute
5	getAllTickForSecond **	Provides all traded ticks of a segment for a particular second
6	getTradedSymbols	Returns the list of all active traded symbols for the date
7	getBhavCopyStatus	Provides the status of Bhav Copy.
8	getLTP	Fetches the latest traded price (LTP) of a given symbol.
9	getLTPBulk **	Fetches LTP for multiple symbols in bulk.
10	getIndexComponents	Provides the list of components (stocks) within a given index.
11	getTopGainers	Returns the list of top gaining stocks for the day.
12	getTopLosers	Returns the list of top losing stocks for the day.
13	getTopVolumeGainers	Provides the list of securities with the highest trading volumes.
14	getSymbolNameChange	Provides the history of name change for a symbol
15	getSymbolOptionChain	Provides the list of option chain symbols for a stock or index

** - add on

2. Analytics APIs **

Sr	API Name	Description
1	getOptionChainLive	Fetches complete live option chain of a particular expiry for that second.
2	getFuturesWithHighestOI	Returns a list of futures contracts with the highest open interest (OI).
3	getOptionsWithHighestOI	Returns a list of option contracts with the highest open interest (OI).
4	getOIGainers	Fetches securities with the highest increase in open interest.
5	getOIGainersPriceGainers	Provides securities where both open interest and price have increased.
6	getOIGainersPriceLosers	Provides securities where open interest increased but price decreased.
7	getOILosersPriceGainers	Provides securities where open interest decreased but price increased.
8	getOILosersPriceLosers	Provides securities where both open interest and price decreased.
9	getOILosers	Fetches securities with the highest decrease in open interest.
10	getIndexGainers	Returns the list of top gaining indices.
11	getIndexLosers	Returns the list of top losing indices.
12	getMostActiveByVolume	Provides a list of the most actively traded securities by volume.
13	getMostActiveByTurnover	Provides a list of the most actively traded securities by turnover (value).
14	getIndustryGainers	Returns the top gaining industries for the day
15	getIndustryLosers	Returns the top losing industries for the day

3. Greeks APIs **

Sr	API Name	Description
1	getOptionChainwithGreeks	Fetches complete live option chain of a particular expiry with Greek values for that second.
2	getLTPwithGreeks	Provides LTP values with Greeks for an option symbol.
3	getTickHistorywithGreeks	Provides historical data for an option symbol with greeks.

4. Symbol Master APIs

Sr	API Name	Description
1	getAllSymbols	Fetches complete live option chain of a particular expiry with Greek values for that second.
2	getOptionchain	Provides LTP values with Greeks for an option symbol.
3	getIndexComponents	Provides historical data for an option symbol with greeks.
4	getSymbolExpiryList	Provides upcoming list of expiries for a symbol
5	getIndustryList	Returns a list of all the Industries
6	getIndices	Returns a list of all indices
7	getETFlist	API to fetch the list of Exchange traded funds for a particular date.
8	getunderlyinglist
